Dimps Corporation Chooses SpeedTree® RT

COLUMBIA, SC – Japan-based game developer Dimps Corporation, creator of many successful games for a variety of publishers, has licensed SpeedTree® RT, company officials announced today.

“SpeedTree is recognized throughout the industry for its unparalleled approach to beautiful, natural foliage,” said Dimps Corp Managing Director, Mr. Hiroyuki Kawano. “Both our players and publishers expect the best effort from Dimps, and we believe that SpeedTree will contribute to our many other projects and meet those expectations as well.”

SpeedTreeRT, winner of the 2005 Front Line Award for middleware, delivers highly realistic trees and plants, with adjustable wind effects, user-configurable and seamless LOD transitions, and an included library of hundreds of tree, plant and marine models representing more than 170 core species. SpeedTreeRT includes SpeedTreeCAD, a Windows application used to create and edit animated trees in real-time. More information is available at www.speedtree.com.

Interactive Data Visualization, Inc. (IDV), develops software products with a focus on real-time three dimensional applications for the game development, visual simulation, engineering visualization, and animation industries. IDV, a privately held corporation, was founded in 1999 in Columbia, South Carolina. More information is available at www.idvinc.com.
