***Canipes*, by Germany's Evil Grin Studios,  
to Include SpeedTree® RT**

COLUMBIA, SC – SpeedTree® RT has been selected by new German game developer Evil Grin Studios for its debut title, *Canipes*.

“We chose SpeedTree RT because of its stunning visual quality bundled with high efficiency in an all-in-one package,” said Evil Grin co-founder and technical director Matthias Fischaleck. “It has proved to be a huge timesaver for both our programmers and artists.”

*Canipes*, an MMORPG (massively multiplayer online role-playing game) will offer players a wide array of game play options within a large, fantasy-based world. The game will feature action, strategy, simulation and offline components within a rich storyline. The official game homepage is located at [www.canipes.com](http://www.canipes.com).

**Evil Grin Studios**, founded in Munich, Germany in 2006 by Bernhard Sirl and Matthias Fischaleck, focuses on the development of next-generation, massively multiplayer online games for the international market. Evil Grin Studios pursues high-quality game content and innovations that push the limits of the genre. More information is available at [www.evil-grin.de](http://www.evil-grin.de).

**SpeedTreeRT**, winner of the 2005 Front Line Award for middleware, delivers highly realistic trees and plants, with adjustable wind effects, user-configurable and seamless LOD transitions, and an included library of hundreds of tree, plant and marine models representing more than 170 core species. SpeedTreeRT includes SpeedTreeCAD, a Windows application used to create and edit animated trees in real-time.

**Interactive Data Visualization, Inc. (IDV)**, develops software products with a focus on real-time three dimensional applications for the game development, visual simulation, engineering visualization, and animation industries. IDV, a privately held corporation, was founded in 1999 in Columbia, South Carolina. For more information about IDV, visit [www.idvinc.com](http://www.idvinc.com).
